*The % Daily Value (DV) tells you how much a nutrient in a serving of food contributes to a daily diet. 2,000 calories a day is used for general nutrition advice.	

Manufacturing process:

- We use the High-Pressure Processing (HPP) system, a non-thermal process for food preservation method that uses water and pressure. Thus, our product is pasteurized without the use of heat or chemicals.
- Excellent preserved food characteristics such as: flavor, color and nutritional values.

Preparation:

Keep frozen until needed. Ready to consume after thawed. Once container has been opened, keep it refrigerated at 35° – 45° F. (2° – 7° C). Don't freeze again once it is defrosted.
